DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on October 23, 2008 has been entered.

Claims 14, 16-22 and 24 are allowed. The following is an examiner's statement of reasons for allowance: claim 14 includes the specific limitation of the torque-limiting gear including a gear base to which the upper gear is secured, and wherein the lower gear is disposed between the gear base and the upper gear, where to the gear base has a friction member disposed on the surface thereof facing the lower gear, and a resilient member disposed between the upper and lower gears, the resilient member being adapted to press the lower gear against the friction member such that the lower gear and the gear base frictionally slide upon one another to reduce the transmission of a rotation load. These limitations, in combination with the remaining elements or steps, are not taught or suggested in the prior art. Claims 16-22 and 24 depend, either directly or indirectly, from claim 14 and are allowed for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2835

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
